**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I have a great job that allows me to work from home. I can only manage this through a strong fiber network from Sonic. The copper wires leading into my house on this block are badly degraded and did not deliver a reliable DSL speed at any price, from any vendor. I should know -- I have tried them all. I spent more than a year sending guys up the power poles to see why my DSL speed was not consistent or strong. In the end, only Sonic's Gigabit Fiber did the job.

My employer does not reimburse me for this or any other services I rely on to do my work. I need reasonably priced broadband via Sonic's Gigabit Fiber to remain employed. If the price goes up, my income takes a hit.

Please prevent price hikes to the internet and phone services I depend on for work. It's not a luxury. It's my livelihood.

Thank you,

Sarah Corr
